ROBERT SMITH

CNC Machinist

info@qwikresume.com | LinkedIn Profile | Qwikresume.com

5+ years of experience as a Machinist. Seeking to pursue my career, and gain as much knowledge as possible to be successful in my profession.

EXPERIENCE

CNC Machinist

ABC Corporation - MARCH 2015 – PRESENT

- Fabricated anything from 16 gauge plate to 10 plates, also using a hydraulic brake press and a 10-foot roller.
- Running a clausing CNC 3 axis knee mill for 3 months and was then promoted again to an Okuma gene l400e CNC turning center.
- Incharge of our machine shop supplies ordering along with other material and supplies orders for the rest of the fabrication shop.
- Working with customers to make sure we send out all quality parts and to meet an expected date of delivery.
- Running a Harrison alpha 400 lathes, and a Harrison manual lathe for smaller jobs that we receive.
- Keeping a very neat and organized machine shop.
- Performing operations with multi-axis machining, multi-axis lathes, and live tooling methods.

Line Technician Joe Machens Nissan

ABC Corporation - JUNE 2014 – MARCH 2015

- My duties included doing lube technician duties as well if there was a need to do so.
- As a line technician, I also took bigger and longer jobs such as engine swaps, transmission swaps, electrical diagnosis, and warranty claims.
- Consistently flagged over 60 hours per week and completed many Nissan certifications.
- Also responsible for handling customer complaints about a car I personally worked on.
- Check over new cars and do new car inspections before going on the lot.
- Keep a log of information for the service manager and service advisor to check on the cars as well.
- Being able to use the proper tools to ensure the quality of the parts ran.
