Objective

Nuclear Power Plant Operator Position in the industry using demonstrated skills in engineering management, process controls improvement, troubleshooting and analysis to optimize the effectiveness of production and maintenance.

Skills

Oil & Gas Production, Cryogenics.

Work Experience

Nuclear Power Plant Operator

ABC Corporation - July 1990 – January 2000

- Monitored plant parameters and take actions as necessary to maintain power plant in a safe and stable condition.
- Equipment monitored include synchronous condensers, stator water, hydrogen cooling, lube oil, air systems, electrical, emergency diesel generators, service water, spent fuel and radiation monitoring equipment.
- Successfully completed control room operator training.
- Passed all training including start-up and shutdown of synchronous condensers, parallel operation of emergency diesel generators and radiation monitoring equipment.
- Worked with Northern Illinois Load Dispatcher for maintaining grid stability by adjusting VARS and starting and stopping diesel generators for system net load.
- Included working with all associated sub-systems and alarm monitoring systems for the Zion Nuclear Power Plant.
- Successfully completed the high voltage switching board review on 345 KV systems.

Nuclear Power Plant Operator

Delta Corporation - 1987 – 1990

- Maintenance Manager - Managed the monitoring maintenance periods of 24 submarines in Pearl Harbor, HI Performance Monitoring Team - Handpicked to .
- Various locations Coordinated maintenance of various electrical components during shutdown and operational periods including motor generators, .
- Major Accountabilities Operate plant mechanical, electrical, and electronic systems under direction of Control Room staff, in accordance with .
- Perform electrical switching evolutions on site 120 KV and 345 KV switchyards per direction of Control Room staff and Electrical Systems Supervisor.
- Additional functions Member of Site Fire Brigade.
- As a Nuclear Power Plant Operator Qualified as Nuclear Auxiliary Operator on all non-licensed watch stations.
- Responsible for operator functions of the following # Nuclear Reactor Auxiliaries # Radioactive Waste Disposal Systems # Steam Turbine # Balance of .
