## PERSONAL STATEMENT

Seeking a position where can use past knowledge and experiences to develop and succeed while giving employer and career.

## WORK EXPERIENCE

### *Wire Harness Assembler/Analyst*

**ABC Corporation - July 2010 – August 2012**

*Responsibilities:*

- Routed and tied wires to form wire harness used in electrical and electronic equipment or systems.
- Read instructions, such as work orders, diagrams, and wire lists to determine materials needed and sequence of assembly.
- Selected wires of the specified color, marking, or length and loops wires between guide pegs on harness board.
- Wrapped and tied wires together at designated points to form harness, manually or using a tie-wrap gun.
- Applied sealing liquid to secure knots in ties, using a brush.
- Inserted cable in plastic tubing or inject plastic sealant around terminals to protect the cable from dust and moisture.
- Tested wiring continuity, using continuity tester and marked identifying data on a completed harness.

### *Wire Harness Assembler*

**ABC Corporation - 2007 – 2010**

*Responsibilities:*

- Responsible for the fabrication, testing, and repair of cabling and electrical components utilized in armored vehicle systems deployed within the US military in support of worldwide defense missions.
- Specific product support includes MATV and MRAP vehicles as well as enhanced and retrofitted HMMWV.
- Used various technical manuals, blueprints, drawings, layouts, and other specifications in order to construct new product according to customer requirements and troubleshoot electrical equipment returned for depot level maintenance.
- Daily operations in a production environment require the knowledge and use of a variety of electricians handtools, measuring and testing instruments, and safety equipment and protocols.
- Additional responsibilities include training and mentoring new team members, performing peer to peer quality control checks, and reporting to supervisory personnel maintenance, supply, and safety needs.
- API Defense Technologies.
