EXPERIENCE

Animal Technician III

ABC Corporation - JUNE 2000 - APRIL 2002

- Breed rodents, weight animals, maintain records and ensure that animal welfare where implemented.
- Collaborated with teams/department to ensure smooth work flow and efficient organization operations.
- Completed documentation and met quality standards.
- Knowledge in the collection of non-routine tissues.
- Nursing animals back to health , cleaning, assisting visitors Skills Used Excellent Customer service Knowledge of Animal Care.
- Full cycle animal care, to include handling, feeding, administering medications, exercising, cleaning of animals and habitats.
- Worked various schedules to include weekends and holidays Conducted socializing tests to determine animals temperament Interacted with clients to help determine adoption suitability Interacted with local law enforcement to assist with seized or found animals Certified to conduct humane euthanasia when required.

Animal Technician

ABC Corporation - 1998 - 2000

- Performed husbandry and breeding activities in 50,000+ mouse facility including filling out Good Manufacturing Practices (GMP) documentation and maintaining equipment and supplies for manufacturing of invitro diagnostic products.
- I was trained on Good Manufacturing Practices (GMP) and SOPs and performing good documentation practices.
- My positive attitude had a positive impact on my co-workers which resulted in a more productive and happier work environment.
- Skills Used The skills I demonstrated most was my ability to work as part of a team.
- The job was very dependent on other people to work closely together and under harsh conditions (hot, humid, animal odor) to make sure the animals remained well cared for at all times.
- Communication was key as everyone in the facility was gowned and masked.
- Attention to detail was critical as each mouse needed to be accounted for, cared for and documented.

EDUCATION

- Veterinary and Zoology - (Universidad de los Llanos)
