PROFESSIONAL SUMMARY

Asp.Net Developer with 5 years of experience in designing and developing dynamic web applications using ASP.NET, C#, and SQL Server. Proven expertise in optimizing application performance and enhancing user experiences through innovative solutions. Committed to delivering high-quality software while adhering to best practices and collaborating with cross-functional teams.

WORK EXPERIENCE

Asp.Net Developer

Maple Leaf Consulting

📅 May / 2022-Ongoing
📍 Toronto, ON

1. Designed and developed performance dashboards and management reports to track application metrics.
2. Ensured timely adherence to release schedules and communicated deviations to stakeholders.
3. Collaborated with the Service Manager to report findings and implement corrective actions.
4. Maintained application documentation and release notes to reflect changes made during updates.
5. Implemented best practices in software development to enhance code quality.
6. Developed WCF services to fetch and manipulate data from SQL Server databases.
7. Optimized existing applications, resulting in a significant increase in performance.

Asp.Net Developer

Summit Peak Industries

📅 May / 2020-May / 2022
📍 Denver, CO

1. Developed web applications using ASP.NET 3.5 and MVC 2.0, enhancing user engagement.
2. Created and optimized SSRS reports to provide actionable insights from SQL Server 2008 data.
3. Utilized WCF services for seamless data integration across applications.
4. Designed data access layers using ADO.NET, ensuring robust application architecture.
5. Implemented log4Net for efficient error logging and management.
6. Maintained user sessions effectively throughout application execution using ASP.NET Session objects.

EDUCATION

Bachelor of Science in Computer Science

State University

📅 May / 2018 - May / 2020
📍 Phoenix, AZ

Focused on software development, web technologies, and database management.
