PROFESSIONAL SUMMARY

Dedicated Associate Scientist with 2 years of experience in biopharmaceutical research, focusing on assay development and quality control. Proficient in performing complex analytical techniques and maintaining compliance with regulatory standards. Committed to driving research outcomes through collaboration and innovative problem-solving in laboratory environments.

WORK EXPERIENCE

Associate Scientist II Jan / 2024-Ongoing
WidgetWorks Inc. Denver, CO

- 1. Conduct experiments to support research and development projects.
- 2. Utilize wet chemistry techniques for quality control of reagents, including pH and spectrophotometry.
- 3. Develop and perform preclinical and clinical functional assays related to vaccine research, ensuring meticulous documentation.
- 4. Create and refine documents associated with biofunctional assays, including SOPs and data analysis reports.
- 5. Apply Lean Six Sigma techniques to enhance laboratory efficiency and meet project goals.
- 6. Improve reagent preparation efficiency by threefold through process optimization.
- 7. Complete all cGMP safety training in compliance with SOPs and departmental regulations.

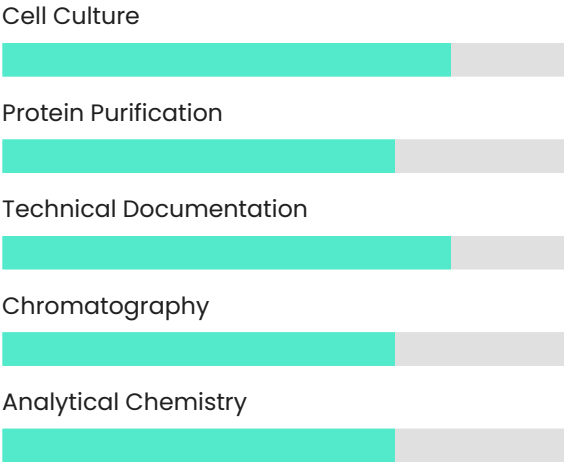

Associate Scientist Jan / 2023-Jan / 2024
Summit Peak Industries Denver, CO

- 1. Executed full method validation for various biopharmaceutical products.
- 2. Ensured quality control of pharmaceutical samples in accordance with FDA standards.
- 3. Trained in environmental health and safety protocols to maintain laboratory safety.
- 4. Composed technical reports detailing experimental results and compliance with acceptance criteria.
- 5. Operated HPLC, UPLC, and GC/MS instrumentation for analytical testing.

EDUCATION

Bachelor of Science in Chemistry Jan / 2022-Jan / 2023
University of California, Berkeley Seattle, WA
Focused on analytical chemistry and laboratory techniques, completing coursework in biochemistry and pharmacology.

INTERESTS

- Podcasts
- Language Learning
- Dancing
- Cycling

STRENGTHS

- Intuition
- Leadership
- Listening
- Mentorship

LANGUAGES

ACHIEVEMENTS

- Streamlined reagent preparation processes, improving efficiency by 30%.
- Successfully developed and validated assays for vaccine research, contributing to two clinical trials.
