

AVA DAVIS

Automation Engineer

✉ support@qwikresume.com ☎ (123) 456 7899 📍 Los Angeles 🌐 www.qwikresume.com

PROFESSIONAL SUMMARY

Accomplished Automation Engineer with 10 years of extensive experience in developing and deploying advanced automation solutions. Proficient in PLC programming, system design, and project management, driving efficiency and productivity improvements. Committed to fostering innovative automation strategies that enhance operational workflows while maintaining stringent safety standards.

WORK EXPERIENCE

Test Automation Engineer

📅 Jan / 2019-Ongoing

Seaside Innovations

📍 Santa Monica, CA

1. Collaborated with cross-functional teams to gather and analyze automation requirements.
2. Developed and executed test plans and cases based on user requirements and specifications.
3. Designed automated solutions to enhance operational workflows and reduce manual intervention.
4. Conducted thorough reviews of project documentation to ensure compliance with industry standards.
5. Created and maintained detailed documentation for all automated systems and processes.
6. Utilized HP ALM for defect tracking and management, ensuring timely resolution of issues.
7. Implemented process improvements that resulted in a significant reduction in operational costs.

Automation Engineer

📅 Jan / 2015-Jan / 2019

Silver Lake Enterprises

📍 Seattle, WA

1. Installed and configured new automation systems, including RTUs and HMIs.
2. Conducted troubleshooting and maintenance on existing automation systems to ensure operational reliability.
3. Designed and verified as-built CAD drawings for installed automation systems.
4. Developed and implemented testing protocols for various automation modules and PLCs.
5. Performed root cause analysis on system failures to identify and resolve issues efficiently.

EDUCATION

Bachelor of Science in Electrical Engineering

📅 Jan / 2012 - Jan / 2015

University of California

📍 Denver, CO

Focused on automation systems, control engineering, and robotics.

ACHIEVEMENTS

- 🌟 Implemented a PLC upgrade that reduced downtime by 30%.
- 🌟 Developed an automated testing framework that improved testing efficiency by 40%.
- 🌟 Led a cross-functional team to streamline production processes, achieving a 25% increase in output.
