### ACHIEVEMENTS

★ Improved equipment uptime by 20% through effective maintenance strategies.

★ Contributed to a project that reduced equipment failure rates by 15%.

### PROFESSIONAL SUMMARY

Detail-oriented Biomedical Engineering Intern with 2 years of experience in medical device maintenance and design. Proven ability to support engineering teams and enhance equipment performance through effective troubleshooting and technical support.

### WORK EXPERIENCE

#### Biomedical Engineering Intern

📅 Dec / 2023-Ongoing

Maple Leaf Consulting

📍 Toronto, ON

1. Serviced and maintained medical devices, including x-ray machines and patient monitors, ensuring optimal performance.
2. Collaborated with engineers to troubleshoot and perform preventive maintenance on biomedical equipment.
3. Supported in-house biomedical teams in the repair and maintenance of electronic medical systems.
4. Gained hands-on experience in a clinical setting, assisting healthcare professionals with equipment usage.
5. Proposed cost-effective solutions for medical equipment procurement, enhancing hospital resource allocation.
6. Worked alongside engineers to repair surgical equipment, including autoclaves, ensuring compliance with safety standards.
7. Conducted weekly monitoring of laboratory equipment, ensuring accurate results for pathologists.

#### Biomedical Engineering Intern

📅 Dec / 2022-Dec / 2023

Summit Peak Industries

📍 Denver, CO

1. Designed and developed biomedical products, including artificial organs and diagnostic devices.
2. Installed and maintained medical equipment, ensuring functionality in clinical environments.
3. Provided technical support and training for healthcare staff on biomedical equipment usage.
4. Evaluated the safety and effectiveness of medical devices, ensuring compliance with industry standards.
5. Collaborated with scientists on research projects related to human and animal biological systems.

### EDUCATION

#### Bachelor of Science in Biomedical Engineering

📅 Dec / 2021 - Dec / 2022

University of California, San Diego

📍 Portland, OR

Focused on the design and development of medical devices, including coursework in biomaterials and biomechanics.
