SKILLS

Administration and Management, Attention-to-Detail, Leadership.

WORK EXPERIENCE

Carman

CSX - 2010 – 2012

- Worked in the shop performing a wide variety of repairs to rail cars.
- Performed single car air brake tests when due.
- Repaired fabrication by using a torch and welder.
- Operated a high rail vehicle in order to get into the rail yard in order to re-rail railcars or locomotives.
- Made repairs to cars in the yard in order to expedite cars moving to customers.
- Took the high rail vehicle out on the mainline to make repairs and re-rail equipment.
- Repaired train cars did brake tests and other maintenance items.

Carman

Delta Corporation - 2014 – 2015

- Maintained a high standard of safety while doing mechanical work on rail cars. Worked each day at a fast pace while providing high quality and very safe products.
- Developed items to make jobs easier and less strenuous.
- Inspected rail cars as trains would come in for defects from wear and tear, making repairs to cars as needed.
- Righted derailed train cars and got them moving down the line for a major overhaul in the train yard. Recorded numbers of cars available, numbers of cars sent to repair stations, and types of service needed.
- Made minor repairs to couplers, air hoses, and journal boxes, using hand tools.
