Objective

Looking for a full-time position using GIS technology and cartography. To utilize my education in the field of Geography, Cartography, GIS, and Urban and Regional Planning in a high capacity within my career.

Skills

Attention-to-Detail, Analytical Ability, Problem-Solving Skills.

Work Experience

Cartographer

ABC Corporation - 1989 - 1993

- Assisted and coordinated the activities of the personnel concerned in preparations of maps and map components.
- Defined production specifications of projections, scale, size, and colors.
- Worked with cross-functional teams to design, develop, and implemented cartographic specifications through data processing and software development efforts.
- Developed functional specifications for the creation or extension of GIS and graphics editing software.
- Defined project requirements and work to prioritize and designed features and enhancements
- Coordinated with individuals involved in data assembly, data processing, software development, and interface design to achieve frequent updates to maps application.
- Developed maps of geographical areas in order to constructed features and political boundaries, using standard drafting techniques and devices.

Cartographer

Delta Corporation - 2000 - 2002

- Maintained computer database of aeromagnetic anomalies and map files. Constructed & finalized land, geological, geophysical, and geochemical base maps.
- Compiled cross-sections, level plans, longitudinal sections, and graphic drill-logs.
- Made maps, graphs, and other illustrations and maintained their quality control for various projects and technical support.
- Delineate aerial photographic detail, such as control points, hydrography, scenery, and cultural features, using precision stereo plotting apparatus or drafting instruments.
- Revised existing maps and charts, making all necessary corrections and adjustments.
- Developed and conducted MC&G computer training classes on the Scitex computers and for new cartographers in the manual compilation.
