PROFESSIONAL SUMMARY

Bringing a wealth of expertise from a decade in chemical plant operations, I am skilled in optimizing production workflows while prioritizing safety measures. My ability to monitor and control chemical processes, troubleshoot equipment malfunctions, and uphold compliance with industry standards has consistently resulted in increased efficiency and minimized risk. I thrive in dynamic environments where operational excellence is paramount.

WORK EXPERIENCE

Chemical Plant Operator II

📅 Jan / 2018-Ongoing

Maple Leaf Consulting

📍 Toronto, ON

1. Coordinated the production and delivery of chemicals to ensure timely distribution to stakeholders.
2. Maintained compliance with safety standards and operational policies, enhancing workplace safety.
3. Utilized SAP Enterprise software and RF scanners for effective inventory management and operational oversight.
4. Operated and serviced plant equipment, ensuring optimal performance and minimal downtime.
5. Managed loading and unloading of tank railcars with hazardous materials, adhering to strict safety protocols.
6. Formulated standard and specialty chemical blends, ensuring quality control and process efficiency.
7. Conducted regular inspections and maintenance on forklifts, ensuring operational readiness and safety compliance.

Chemical Plant Operator

📅 Jan / 2015-Jan / 2018

Crescent Moon Design

📍 Portland, OR

1. Oversaw daily plant operations, ensuring adherence to safety regulations and efficient workflow.
2. Collaborated with maintenance teams to identify and rectify equipment issues promptly.
3. Trained new staff on safety protocols and operational procedures, fostering a culture of safety.
4. Monitored chemical processes, adjusting parameters to optimize production quality and efficiency.
5. Participated in safety audits and inspections, contributing to continuous improvement initiatives.

EDUCATION

Associate of Applied Science in Chemical Technology

📅 Jan / 2012 Jan / 2015

Community College of Denver

📍 Denver, CO

Focused on chemical process operations and safety management.
