CORE COMPETENCIES

Microsoft Office, Human Resources, Inventory Management, Problem Solving.

PROFESSIONAL EXPERIENCE

Sr. Chemical Specialist

US ARMY - FORT HOOD - June 2006 – 2020

Key Deliverables:

- Formulated liquid sterile pharmaceutical products and dispensing chemicals Conducted inventory investigation reports for chemicals and filter.
- Unarmed Security License Hazmat Certified M4 Carbine/M249b/M240b Qualified.
- Assist in the establishment of CBRN defense measures Operate and maintain CBRN detection and decontamination equipment.
- Rigged up and rigged down cementing service equipment on work locations Trained and provided guidance to operator assistants in the proper.
- Performed pre-job calculations related to pipe capacities and volume/height math, plug landing pressures, absolute volumes.
- Recorded basic lab test data such as pump time, density, yield, water ratio, etc.
- Supervised training of 180 soldiers in chemical equipment, primary advisor to the commander in chemical warfare.

Chemical Specialist

Delta Corporation - 2001 – 2006

Key Deliverables:

- NCO ranks, this one, very possibly, has the greatest impact on lower-ranking soldiers.
- Privates, who are the basic manpower strength of the Army, generally have sergeants as their first NCO leaders.
- It is to the rank of sergeant that the privates look for example.
- Sergeants are responsible for the individual training, personal appearance and cleanliness of their soldiers.
- Authority of the sergeant is equal to that of any other NCO rank.
- Sergeant must be unquestionably competent in order to carry out the mission correctly, accomplish each task and care for assigned soldiers.
- Rank of sergeant is not a position in which to learn how to become a leader - no apprenticeship here.
