

Objective

Crude Oil Hauler carry Crude Oil Products between customer leases, rail cars, barges, tanks, pipelines and more. All drivers will enter a period of training to demonstrate proficiency in driving, crude oil measurement and testing, operation of truck on-board computer system and ticketing process.

Skills

Crude Oil Hauling, Flatbed, Mining.

Work Experience

Crude Oil Hauler

Liberty Crude Oil Transportation - January 2015 – 2020

- Drove and operated an 18-wheel tractor/cargo tank to safely transport crude oil from the field to pipeline injection point or refinery.
- Opened and closed required valves to allow the product to flow in or out of the trailer. Climb storage tank (15' to 30') to gauge the volume of the product that is in the tank so as not to overflow the tank.
- Tested product using on-board oil centrifuge and spinning for 5 minutes. Check and record bottom sediment, water percent, temperature, and gravity of the product.
- Recorded volume and lease site load/unload activity into a hand-held computer for the printing of run tickets.
- Prepared driver's Daily Report and other paperwork.
- Inspected truck, tires, and tank and surrounding area for safety concerns and ensure all operating equipment is in proper working order and meets safety conditions.
- Reported the volume of product hauled for accounting, revenue, and payroll purposes.

Crude Oil Hauler

Delta Corporation - 2013 – 2015

- Transport crude oil from to pipeline disposal, DOT compliance, hazmat and tanker endorsement utilized.
- Responsibilities Pre/post trip inspection of commercial vehicle Gauge and measure oil tanks Haul crude oil to injection sites Skills Used Safely.
- Pre/post-trip inspection of commercial vehicle Gauge and measure oil tanks Haul crude oil to injection sites.
- Crude Oil Hauler Gauge and test crude oil in lease tank to determine if oil is acceptable.
