PROFESSIONAL SUMMARY

Cyber Security Analyst with 7 years of experience in cybersecurity and network defense. Proven ability to enhance security posture and mitigate risks through effective monitoring, analysis, and incident response strategies.

WORK EXPERIENCE

Cyber Security Analyst - Contractor
Pineapple Enterprises

📅 Dec / 2019-Ongoing
📍 Santa Monica, CA

1. Reviewed IDS/IPS events to identify anomalous activities and potential network security risks.
2. Monitored and investigated suspicious network activities using tools such as ArcSight, Splunk, and FireEye.
3. Analyzed network traffic and log data to assess threats and their impact on the network.
4. Evaluated and escalated incidents according to established incident response procedures.
5. Managed incident handling and documentation throughout the incident response lifecycle, including detection, triage, analysis, and reporting.
6. Utilized threat intelligence tools to support daily cybersecurity operations and produce intelligence analysis on threat actors and vulnerabilities.
7. Participated in classified briefings to enhance awareness of emerging cyber threats.

Cyber Security Analyst
Crescent Moon Design

📅 Dec / 2017-Dec / 2019
📍 Portland, OR

1. Conducted risk, threat, and vulnerability analyses to identify and develop effective mitigation strategies.
2. Produced comprehensive threat reports and briefings by integrating open-source and classified data for senior leadership.
3. Collaborated with government clients to provide network insights and develop models to reduce risk exposure.
4. Detected and blocked malicious network traffic at the web security gateway, ensuring network integrity.
5. Created and documented workflows and standard operating procedures to enhance operational efficiency.

EDUCATION

Bachelor of Science in Cybersecurity
University of California, Berkeley

📅 Dec / 2015-Dec / 2017
📍 Portland, OR

Focused on network security, risk management, and incident response strategies.

SKILLS

Network Monitoring And Intrusion Detection	Security Operations Center (SOC)	Splunk	Infoblox

ACHIEVEMENTS

⭐ Implemented a threat detection system that improved incident response efficiency by 40%.

⭐ Conducted training sessions for staff, increasing cybersecurity awareness and reducing phishing incidents by 50%.
