ACHIEVEMENTS

⭐ Developed 20+ ETL processes, improving data loading efficiency by 30%.

⭐ Optimized SQL queries, reducing execution time by 40% for critical reports.

PROFESSIONAL SUMMARY

Results-driven Database Developer with 5 years of experience in designing, implementing, and optimizing database solutions. Proficient in SQL Server, SSIS, and SSRS, with a strong focus on data integrity and performance tuning.

WORK EXPERIENCE

SQL Database Developer
Seaside Innovations

📅 Dec / 2020-Ongoing
📍 Santa Monica, CA

1. Collaborated in an agile environment, participating in daily scrums to enhance project delivery.
2. Designed and developed ETL packages using SSIS for efficient data integration and transformation.
3. Created stored procedures, functions, and views in SQL Server to support reporting and data warehousing.
4. Enhanced database performance through indexing, query optimization, and data normalization.
5. Utilized PowerShell scripting to automate database tasks and streamline development processes.
6. Developed interactive reports using SSRS, providing stakeholders with actionable insights.
7. Coordinated with DBAs to deploy SSIS packages, ensuring smooth integration into production environments.

MS BI Developer (SQL, SSIS, SSRS, SSMS)
Summit Peak Industries

📅 Dec / 2019-Dec / 2020
📍 Denver, CO

1. Integrated data from multiple sources into a centralized database, enabling comprehensive reporting capabilities.
2. Designed SSIS packages based on business requirements for data extraction and reporting.
3. Engaged in the full ETL lifecycle, from analysis to deployment, ensuring quality deliverables.
4. Authored technical documentation and deployment guides to facilitate knowledge transfer.
5. Supported team members with technical challenges, fostering a collaborative work environment.

EDUCATION

Bachelor of Science in Computer Science
University of California

📅 Dec / 2018-Dec / 2019
📍 Seattle, WA

Focused on database management, software development, and data analysis.
