👤 PROFESSIONAL SUMMARY

Dedicated DataStage Developer with 5 years of experience in ETL processes, focusing on the design and execution of data integration solutions. Proficient in IBM InfoSphere DataStage and SQL, I excel in optimizing data workflows and improving data quality. My collaborative approach in cross-functional teams drives successful data-driven outcomes and enhances business intelligence capabilities.

🖥 WORK EXPERIENCE

Datastage Developer

WidgetWorks Inc.

📅 Apr / 2021-Ongoing
📍 Denver, CO

1. Gathered and analyzed business requirements through interviews and documentation to inform ETL design.
2. Created conceptual and logical data models, translating business needs into technical specifications.
3. Designed physical models and developed database scripts for implementation using industry-standard tools.
4. Documented data sources and transformation rules, ensuring clarity for ETL processes.
5. Estimated data volumes and defined data structures for target tables in the database.
6. Mapped source to target databases, analyzing transformation needs based on specifications.
7. Utilized DataStage Designer to develop jobs for extracting, transforming, and loading data into the data warehouse.

ETL Developer

Silver Lake Enterprises

📅 Apr / 2020-Apr / 2021
📍 Seattle, WA

1. Led and participated in the documentation of data and analytical requirements, ensuring alignment with project goals.
2. Provided estimates for project timelines and managed medium to large complexity projects effectively.
3. Conducted code review sessions, fostering collaboration and knowledge sharing among developers.
4. Identified and recommended process improvements, enhancing overall efficiency.
5. Authored technical designs and developed ETL job streams, ensuring quality and performance.
6. Extracted and processed financial data from core enterprise systems, ensuring accuracy and integrity.

🎓 EDUCATION

Bachelor of Science in Computer Science

State University

📅 Apr / 2019-Apr / 2020
📍 Phoenix, AZ

Focused on data management, ETL processes, and software development principles.
