

JAMES CLARK

Design Release Engineer

PROFESSIONAL SUMMARY

Motivated Design Release Engineer with 2 years of experience in the automotive sector, specializing in product design and release processes. Skilled in collaborating with cross-functional teams to drive design improvements and ensure compliance with industry standards. Eager to apply innovative engineering solutions to enhance product performance and reliability in dynamic environments.

WORK EXPERIENCE

Design Release Engineer

Quantum Solutions LLC

Apr / 2024–Ongoing

Phoenix, AZ

1. Managed design release activities for various automotive components, ensuring adherence to specifications and timelines.
2. Coordinated with manufacturing and assembly teams to resolve quality and production issues promptly.
3. Oversaw the release of automotive parts, facilitating tooling and assembly feasibility assessments.
4. Provided engineering support in a laboratory setting, conducting troubleshooting and root cause analysis.
5. Specified and balanced project requirements, executing design evaluations and validations.
6. Collaborated with cross-functional teams to implement design improvements and optimize performance.
7. Collaborated with suppliers to optimize material selection, resulting in a 10% cost reduction in production expenses.

Design Release Engineer

Crescent Moon Design

Apr / 2023–Apr / 2024

Portland, OR

1. Assisted in the development of project timelines and resource allocation.
2. Participated in design reviews to ensure compliance with industry standards.
3. Supported the testing and validation of automotive components, documenting results for future reference.
4. Engaged in continuous improvement initiatives to enhance design processes.
5. Provided training and guidance to junior engineers on design release protocols.
6. Maintained communication with suppliers to ensure timely delivery of components.

EDUCATION

Bachelor of Science in Mechanical Engineering

University of Michigan

Apr / 2022 – Apr / 2023

Denver, CO

Focused on automotive systems and product design, gaining hands-on experience in engineering principles.
