### Dog Bather

**ABC Corporation** - 2011 – 2015

- I would greet the dogs parents, take them to the back and put them in a crate, and by order or by importance I would bathe them and this included expressing anal glands, using special shampoos and/or conditions, and when I finished bathing them, I took them to the drying table and dried them off.
- When all dogs were finished being bathed my job was to clean up the tubs and surrounding areas and make sure there wasnt any hair floating around.
- After each dog was finished with being groomed, I would call the owner and let them know their baby was ready to go.
- On occasion I would help with overnight boarding when we would do it.
- This job allowed me to be myself and to have fun with animals.
- It was a fun and fast paced environment and it helped me become even a larger animal lover.
- Skills Used Customer service Dog handling Monitoring Listening skills Time management Critical thinking.
