

Objective

To obtain a position in a reputed agency to utilize knowledge and gain further skills.

Skills

I Can Run Or Operate The Following Equipment, 980 G/K.

Work Experience

Drill Operator

ABC Corporation - January 2014 – August 2015

- Drilled headings for blasting, did routine maintenance on drill daily, did pre-shift exams, helped to mark up headings.
- Also did much scaling and roof/wall control as to loose material.
- Was also trained on the 930 Cat loader in order to do clean up as well as clean out my own headings.
- Tried to make it safer for everyone who worked there, by trying to make sure headings were safe and free from loose materials that could fall and injure others or damage equipment.
- Worked with the powder crew in order to help make their job safer and easier.
- Also obtained my Kentucky General Blasting License.
- Skills Used I used my judgement as to determining if areas were safe to operate in, as well as being able to drill close enough to the ceiling as to have no overhangs, or to not have bootlegs in the faces after the shots were cleared.

Drill Operator

Delta Corporation - 2009 – 2014

- Drilled for shots to be blasted, as well as did pre-shift exams, and minor maintenance on the drill.
- Helped to mark up headings, as well as survey for straight lines.
- Also hand scaled walls and ceilings using a Genie lift, as well as ran a 330 and a 320 Cat track hoe with mechanical scalers.
- I learned to drill the headings correctly, which helped make things safer for everyone.
- Learned to keep the ceiling intact after the blast, by how to adjust the drill height.
- Learned to use a mechanical scaler correctly, which in turn helped when I drilled.
- Skills Used I learned how to judge the height of the boom, depth of the drill steel, and speed at which was needed to drill.

Education

High School Diploma in General Studies - (Bracken County High School - Brooksville, KY)
