PERSONAL STATEMENT

As an Edm Operator, responsible for Adjusting programs by entering instructions, setting tool registers, offsets, and conditional switches; calculating requirements, including basic math, geometry, and trigonometry; proving part programs, and also Loading feed mechanism by lifting stock into position.

SKILLS

MIG Tig And Flux Core
Welding, Forklift
Operator Various Styles,
Break Press Operator,
Shear Operator,
Assembly, Sheet Metal
Fabrication.

WORK EXPERIENCE

Edm Operator

ABC Corporation - 2015 - 2015

Responsibilities:

- Studied blueprints, sketches, models, or specifications to plan sequences of operations for fabricating fixtures, tools, inserts, or assemblies.
- Set up and operated conventional machine tools such as milling machines, and grinders to cut, bore and grind, or otherwise shape parts, fabricate fixtures to prescribed dimensions and finishes for repeatable setup.
- Set up, Programmed and operated CnC wire, sinker & hole pope to determine reference points, machine cutting paths, or hole locations, and compute angular and linear dimensions, radii, and curvatures.
- Observed machines on dry runs or conduct computer simulations to ensure that programs and machinery will function properly and produce items that meet specifications.
- Measured dimensions of finished work pieces to ensure conformance to specifications, using precision measuring instruments, templates, and fixtures.
- Mounted, installed, aligned, and secured tools, attachments, fixtures, and work pieces on machines, using hand tools and precision measuring instruments.
- Stopped machines to remove finished work pieces or to change tooling, setup, or work piece placement, according to required machining sequences.
