

Objective

An architectural & electrical draftsman began working with AutoCAD release, and have progressed up to AutoCAD Electrical 2015. Worked in creating and maintaining construction documents for architectural, interior design, engineering firms, electrical vehicle, and gas/hydro turbine manufacturing companies throughout the north & southeast areas.

Skills

Friendly and Open-Minded, Goal-Driven.

Work Experience

Electrical Drafter

Duke Energy - February 2015 – May 2018

- Correct AC/DC electrical schematics, panel wiring, relay riser diagrams, and one-line communications drawings.
- Correct redline drawings and update existing CAD drawings with AutoCAD Electrical 2015.
- Implement new Duke CAD standards for all existing CAD drawings.
- Check out/in CAD drawings using Fusion P8 software.
- Update electrical drawings with Bentley Microstation V8i.
- Correct red-lined drawings and updating the existing CAD file database.
- Update electrical Raster files with GTX Raster CAD.

Electrical Drafter

Delta Corporation - 2013 – 2015

- Generated electrical blueprint drawings using Microstation.
- Drafted electrical drawings for Dillard's stores and shopping malls.
- Drafted mark ups from engineers.
- Contract assignment.
- Correct electrical panel schematics riser diagrams and specifications for hydro powered turbine engines.
- Correct red-lined drawings and updating existing CAD file database.
- Work with Access Database to create and maintain wire/cable numbering system.

Education

Certificate in AutoCAD Drafting and Design - (Anson Technical Community College - Polkton, NC)
