

# ROBERT SMITH

## Engineering Team Leader

**E-mail:** info@qwikresumc.com

**Phone:** (0123)-456-789

### SUMMARY

Maintaining a thorough understanding of contract documents, and also Establishing and leads, participates in Owner, Architect, and Contractor meetings.

### SKILLS

Autocad, Excel, Communication Skills.

### WORK EXPERIENCE

#### Engineering Team Leader

ABC Corporation - 2010 – 2010

- Involved in research and development of hydraulic tube assemblies used in Caterpillars heavy machinery.
- Created an entirely new R&D Lab for Tube Assemblies.
- Negotiated and procured capital equipment.
- Involved in developing test procedures to compare mechanical properties and weld properties for tube assemblies.
- Involved in developing and implementing the R&D test plan for Tube End Attachment methods and created a list of preferred threaded tube ends.
- Responsible for benchmarking competitors tube assemblies.
- Responsible for the maintenance of tube related engineering standards and 1E Specifications.

#### Engineering Team Leader

Delta Corporation - 2005 – 2010

- Led cross-functional team to address emergency customer requests and increased conversion rate by 3% through establishing transparent communications.
- Launched first e-commerce website by partnering with CEAir to sell airline tickets and insurances, achieving ticket sales of \$3.6M with 14% growth.
- Managed engineering operations.
- Performed electrical safety testing, trained overseas clients on UL/CSA standards.
- Manufacturing Manager for both Heat Treat and Final Drive Assembly departments in building HH.
- Improved reportable injury frequency over 15% while simultaneously increasing productivity by 35% and efficiency 5% above plan, and lowering total cost.
- Brought supply of final drives current with demand within two months of assignment and while also being one of a few TTT suppliers to meet quality.
