### 💡 SKILLS

Advanced Sql Proficiency

Informatica

Sql

Sql Server

Big Data

### 🎯 INTERESTS

📖 Puzzle Solving ○ Meditation

🎮 Gaming 🍳 Cooking

### 👊 STRENGTHS

❤ Sincerity ✔ Accountability

🔄 Adaptability 🏔 Perseverance

### 🗣 LANGUAGES

English

Russian

Italian

### 🏆 ACHIEVEMENTS

- ★ Successfully optimized ETL processes, reducing data load times by 30%, enhancing operational efficiency.
- ★ Collaborated with cross-functional teams to develop data integration solutions that improved reporting accuracy by 25%.
- ★ Designed and implemented a data quality framework that led to a 40% reduction in data discrepancies.

### 👤 PROFESSIONAL SUMMARY

Skilled ETL Developer with 5 years of comprehensive experience in designing, implementing, and optimizing ETL processes using Informatica PowerCenter and SQL. Proven expertise in enhancing data quality and streamlining data integration across diverse platforms. Eager to leverage analytical capabilities to transform complex datasets into strategic insights that drive informed business decisions.

### 💻 WORK EXPERIENCE

#### ETL Developer – Application Programmer

📅 Feb / 2022 – Ongoing

Quantum Solutions LLC

📍 Phoenix, AZ

1. Designed, developed, and implemented ETL jobs to efficiently load data into data marts from various sources.
2. Collaborated with business stakeholders to gather and analyze requirements for data integration projects.
3. Created comprehensive Source-Target Mapping documents for multiple dimensions and fact tables.
4. Modified ETL jobs to meet evolving business reporting needs on a monthly and quarterly basis.
5. Developed ETL processes to extract, transform, and load data from files, Oracle, Teradata, and SQL Server databases.
6. Executed complex data transformations from Oracle to Teradata, ensuring compliance with specifications.
7. Utilized Teradata utilities like Multi Load and Fast Load to optimize data loading processes into the data warehouse.

#### ETL Developer

📅 Feb / 2020–Feb / 2022

Summit Peak Industries

📍 Denver, CO

1. Developed mapping and transformation rules in Oracle Warehouse Builder (OWB) to align with business requirements.
2. Created PL/SQL scripts for converting legacy data into a normalized format for effective ETL processing.
3. Collaborated with clients to define and implement OWB architecture and data archiving solutions.
4. Established daily data transfer routines from Oracle Applications to the data warehouse.
5. Designed PL/SQL scripts for sales data recasting, enhancing the data visibility for sales representatives.
6. Optimized PL/SQL scripts for performance improvements, achieving significant processing time reductions.

### 🎓 EDUCATION

#### Bachelor of Science in Computer Science

📅 Feb / 2018 – Feb / 2020

University of Technology

📍 Phoenix, AZ

Focused on software development and database management.
