ISABELLA CLARK

ETL Automation Tester

✉ support@qwikresume.com   ☎ (123) 456 7899   ◉ Los Angeles   ◉ www.qwikresume.com

PROFESSIONAL SUMMARY

Seasoned ETL Automation Tester with 7 years of comprehensive experience in data quality assurance and testing methodologies. Skilled in designing automated test frameworks and executing ETL processes to ensure data accuracy and compliance. Proven ability to collaborate with cross-functional teams, utilizing advanced analytical skills to drive project success and enhance testing efficiency.

WORK EXPERIENCE

ETL Automation Tester

Seaside Innovations

📅 Apr / 2020-Ongoing
📍 Santa Monica, CA

1. Monitored ETL processes for anomalies and ensured data quality through rigorous testing protocols.
2. Collaborated with business analysts to clarify ETL requirements and enhance process documentation.
3. Documented testing procedures to facilitate knowledge transfer and team training.
4. Worked with engineering teams to troubleshoot ETL issues and implement effective solutions.
5. Reviewed new ETL processes for compliance with business standards prior to deployment.
6. Communicated project updates and changes effectively to stakeholders throughout the development lifecycle.
7. Maintained an organized testing environment, ensuring software tools were current and effective.

ETL QA Analyst

Crescent Moon Design

📅 Apr / 2018-Apr / 2020
📍 Portland, OR

1. Engaged with business analysts to gather requirements for ETL testing and project coordination.
2. Installed and configured Informatica tools on client systems for effective ETL development.
3. Managed user roles and permissions for ETL development through Informatica PowerCenter.
4. Executed data extraction, transformation, and loading from RDBMS and flat files into Oracle databases.
5. Optimized ETL performance by implementing various caching strategies in data transformations.
6. Utilized incremental loading techniques to enhance data processing efficiency.

EDUCATION

Bachelor of Science in Computer Science

State University

📅 Apr / 2016-Apr / 2018
📍 Denver, CO

Focused on software development and data management principles.

SKILLS

Data Profiling Tools	Data Warehousing	Business Intelligence	Etl Testing

ACHIEVEMENTS

⭐ Developed and implemented automated testing scripts that reduced testing time by 30%.

⭐ Led a cross-functional team to enhance ETL processes, resulting in a 25% increase in data accuracy.

⭐ Designed a comprehensive test suite that improved defect detection rates by 40%.
