### Work Experience

#### Fabrication Operator

**ABC Corporation** - September 2002 - 2002

- Filled a bin with the number of parts on the spec sheet we would then print a count ticket off of our zebra printer.
- Adhered to all safety policies and procedures; performed tasks in a safe manner.
- Checked parts for dimensions.
- Assisted with procuring materials needed for production. Must use a tape measure, plug gauge, dial indicator, inside caliper, dial caliper, and burr knife.
- Operated the various equipment to include cutting couplings, machining couplings on the lathes, drilling holes, putting inset screws, hydro testing couplings, and packaging.
- Responsible for completion for production & quality paperwork.
- Answered employee technical questions when information is known.

#### Fabrication Operator

**Delta Corporation** - 2001 - 2002

- Fabricator Started as a night supervisor until around when they decided to revamp and get rid of the night shift.
- Responsibilities were using various tools to manufacture pipe products.
- Put in 2 months notice to relocate to Pennsylvania.
- Got the turkeys and the turkey products ready to be shipped out to the consumer I also was trained in organics we were able to process organic.
- Learned all phases of the fabrication process at the plant I had a lot of training to better me in many other plant processing centers I also.
- Used listening, reading, and paying attention to details I also had to use my ability to do whatever my job required me to do on a day today.
- Operated systems such as LPECVD, Parametric Test, Ion IMPLANT / Sputter, & Oxidation Process.

### Education
