PROFESSIONAL EXPERIENCE

Field Artillery Officer

ABC Corporation - 2011 – 2015

Key Deliverables:

- Led a challenging 2-year effort to implement an Army-wide online database system involving representatives from nearly every major Army command with excellent results; a system with 30K regular users and 2M lines of code.
- Leveraged/coordinated several multi-million-dollar contract vehicles to deliver timely and relevant system fixes based on feedback from key stakeholders.
- Balanced budgeting/technical constraints to deliver workable solutions.
- Led a technical system help desk for 18 months.
- Consisted of 7 Department of the Army Civilians providing support to system users.
- Regularly prepared and briefed GO level leadership and stakeholders on system development progress and implementation of system fixes.
- Oversaw the development and integration of a database system used by Army Centers of Excellence (COE) registrars across Army Training and Doctrine Command (TRADOC) to record/track grades and every aspect of a soldiers digital training record then allow the information to follow a soldier to their first unit of assignment (saved the Army millions of dollars).
