### **WORK EXPERIENCE**

#### ***Freelance Web Developer***

**ABC Corp - June 2005 - Present**

##### *Responsibilities:*

- Currently a freelance web developer responsible for marketing, selling services, managing all client relationships, controlling budgets, and designing/developing websites and web-based applications from small to large businesses.
- My work consisted of providing accurate solutions to different kinds of customers such as restaurants, e-commerce stores, schools, etc. Full-service web needs including, rebuilding or building for the first time websites, adding in finding the right hosting dependent upon client needs. Branding and logo creation as well as media needs including ad campaigns.
- Developed and communicated website usage, security policies and standards for all users.
- Established policies and procedures for publishing web pages and applications in conjunction with content creators and sales staff.
- Used object-oriented design/programming to design new stand-alone application.
- Created accent graphics, banner ads, icons, animations and logos using photoshop and illustrator.
- Designed and developed software for various clients. Developed internet and intranet applications.
