## WORK EXPERIENCE

### Freelance Web Developer

ABC Corp - 2010 - Present

- Developing, optimizing and maintaining the websites and applications utilizing HTML, CSS, PHP, MySQL, Javascript, jQuery and various APIs to meet my clients needs and goals.
- Coding design mockups into pixel perfect, tableless, cross-browser compatible, search engine friendly websites via HTML, javascript, PHP, MySQL or fully themed WordPress sites.
- Proficiency in Infusionsoft sales funnels, campaign builds, follow-up sequences, action sets, web and order forms, as well as major implementations of self-hosted API solutions.
- Collaborating with the sales, marketing, and support teams within numerous organizations to launch products on time and within budget.
- Managing the creative projects from concept to completion while managing outside vendors.
- Diagnosing, troubleshooting and resolving the issues with website, server and/or third-party integrations.
- Setup and administered various Linux servers (Centos and Debian/Ubuntu) and software, such as digital ocean droplets and other VPSS, Apache, Nginx, MySQL, and MongoDB.

### Web Administrator

Cab Incorporated - November 2006 - September 2010

- Engaged with clients for suggestions and feedback throughout development and implementation process.
- Cross-tested website designs across multiple browsers and mobile devices.
- Managed WordPress content, design, and layout, and installed and activated multiple plugins.
- Developed a WordPress blog for a non-profit, and assisted in the creation of landing pages and website for an innovative insurance product.
- Built databases, tables, selection via command line sql or phpmyadmin.
- Identified the clients, brands, and the projects need for an efficient and cost-effective web build.
- Migrated existing "problem" websites/applications to stable, high-performance, maintainable one.
