Alabama.

Objective

Proficient in developing web page quickly and effectively using: HTML5, CSS3, JavaScript. Extensive experience of OOAD, OOPS, Multi-tier and distributed architectures in developing web-based and client-server application Expertise in debugging and troubleshooting existing code.

Skills

Angular Js, HTML 5, CSS3, CSS, Javascript, JQuery.

Work Experience

Front End Web Developer

ABC Corporation - February 2010 - July 2012

- Involved in requirement gathering and creating initial documentation for the system.
- Presented the flow to the business with documentation and a dummy environment.
- Involved in creating the xml based parses which take the feed from system and redirect the user to appropriate sections based on user interaction.
- Developed user interfaces using HTML, DHTML, XHTML, AJAX, CSS & JavaScript, JQuery.
- Involved in translating Wireframes & Photoshop designs into functional prototypes using HTML/CSS/JS Understanding the functionality from scratch from provided wireframes, used cases & other documents.
- Involved in client/product owner interaction to understand the requirements & during complete development phase for any change request, functionality demo, daily status meeting etc.
- Involved in performance improvement (page load speed, Ajax response timings, lazy loading of images, minimized http requests etc) of the application on various devices.

Front End Web Developer

Sustain Creativity - 2009 - 2010

- - Specialize in Front End Web Development utilizing HTML5, CSS3, JavaScript, jQuery & jQuery Plugins, Ajax, and Json.
- Work with the Shopify eCommerce CMS and utilize the Ruby templating language, Liquid, to build and deploy eCommerce websites for clients.
- Collaborate with the marketing and design teams to transform PSDs into pixel perfect HTML/CSS.
- Worked with several high profile clients and have built specialized pages which helped them achieve more revenue.
- One example was a single page "pack builder" page which allowed customers to select the products they want (in various quantities) and dynamically alter their choices.
- Prior to this customers had to go to a brand new page each time they needed to customize their order (resulting in a page refresh and their orders being restarted), which ended in a high bounce rate.
- Skills Used Custom SPA solution based on JS/JQuery..
