

Robert Smith

Associate General Mechanic

PERSONAL STATEMENT

A highly motivated individual with a proven ability to learn quickly, create, implement, and maintain procedures both old and new in any environment.

WORK EXPERIENCE

Associate General Mechanic

ABC Corporation - October 1998 - August 2002

Responsibilities:

- Developed a method to unplug an online heating coil, saving \$50,000 and three days of downtime.
- Created to document this method for future use.
- Responsible for the maintenance, repair, and upkeep of five sheeting machines, one rewinder and other various plant support equipment.
- Maintained, automotive body and paint repair, mechanical repair of motors including complete engine swaps, transmission swaps.
- Troubleshoot issues using the proper manual for the truck in order to identify what part was damaged and needed to be changed.
- Had to replace alternators which require the use of a multi-meter to ensure the voltage coming out is high enough as well as the use of a belt tension gage to ensure the belts will not break.
- Had to use the Simplified Test Equipment/Internal Combustion Engines (STE ICE) machine to trouble shoot electrical problems.

General Mechanic

Delta Corporation - 1997 - 1998

Responsibilities:

- Also had to use impact tools to remove tires.
- Used the bearing packing tool to fill all the bearings to specifications.
- This position also required me to change major components of the trucks like the transmission which requires adjusting of the linkage.
- Had to work on brakes both air and hydraulic requiring me to measure the pads and make adjustments or replace the worn out parts.
- Had to remove the heads on the engine in order to remove glow plug parts if they were broken.
- Had to use the hydrometer to test the specific gravity of the electrolyte in the batteries of the trucks.
- General car repairs oil changes, tire dismount and remount, tire rotations, hub assemblies, light assembly, assorted sensors, etc.
