PROFESSIONAL SUMMARY

Accomplished Grinder with over 5 years of experience in high-precision machining environments. Expertise in operating CNC and manual grinding machines, leading to a 15% increase in production output. Strong background in quality assurance, ensuring that all products meet stringent specifications and customer requirements. Known for my ability to troubleshoot and resolve machine issues quickly, minimizing downtime. A team-oriented professional dedicated to fostering a culture of safety and continuous improvement in the workplace.

WORK EXPERIENCE

Grinder Dec / 2021-Ongoing
Quantum Solutions LLC Phoenix, AZ

- 1. Operated various grinding machines to achieve precise dimensions on metal and plastic components.
- 2. Monitored and adjusted machine settings to maintain optimal performance and quality standards.
- 3. Collaborated with team members to meet production deadlines, improving workflow efficiency.
- 4. Coordinated with engineering teams to develop and refine grinding processes for new product lines, resulting in successful launches.
- 5. Performed root cause analysis on grinding defects, implementing corrective actions that reduced rework rates by 40%.
- 6. Ensured compliance with safety regulations and best practices, contributing to a zero-accident record in the grinding department.
- 7. Maintained accurate records of production metrics and machine performance to identify areas for improvement.

Grinder Dec / 2019-Dec / 2021
Crescent Moon Design Portland, OR

- 1. Inspected and measured workpieces to ensure compliance with specifications and tolerances.
- 2. Monitored machine operations, making adjustments as necessary to optimize performance.
- 3. Interpreted blueprints and technical drawings to determine grinding procedures and setups.
- 4. Set up and operated grinding machines, selecting appropriate wheels and abrasives for each task.
- 5. Maintained a clean and organized work area, adhering to safety and quality standards.

EDUCATION

Associate of Applied Science in Precision Machining Dec / 2017 - Dec / 2019
Purdue University Portland, OR
Focused on advanced machining techniques and grinding operations.

SKILLS

- Material Transport
- Blueprint Analysis
- Grinding Equipment Setup
- Workplace Efficiency
- Troubleshooting
- Computer literacy

INTERESTS

- Running Public Speaking
- Woodworking Star Gazing

STRENGTHS

- Teamwork Tenacity
- Thoroughness
- Time-management

LANGUAGES

- English 80%
- Mandarin 80%
- German 80%

ACHIEVEMENTS

- Achieved a 15% reduction in waste by optimizing grinding processes.
- Consistently met production targets, averaging 98% on-time delivery.
