★ Successfully implemented new financial reporting frameworks leading to a 25% increase in reporting accuracy.

PROFESSIONAL SUMMARY

Highly skilled Hyperion Consultant with 5 years of experience in implementing and optimizing financial applications and reporting solutions. Expert in leveraging Hyperion tools to enhance data integrity and streamline financial processes. Focused on driving actionable insights and improving overall business performance through advanced analytics and strategic solutions.

WORK EXPERIENCE

Hyperion Consultant
📅 Mar / 2021-Ongoing
Pineapple Enterprises
📍 Santa Monica, CA

1. Gathered and analyzed business requirements, collaborating with stakeholders to define functional specifications for Hyperion applications.
2. Developed and optimized calculation scripts, business rules, and web forms to enhance application performance.
3. Configured FDM adapters and developed load action scripts to facilitate seamless data integration into Essbase.
4. Provided troubleshooting support for HFM, FDM, and HFR, improving user satisfaction and system efficiency.
5. Established HFM Change Control Processes, improving compliance and control over financial data management.
6. Managed user security across development, QA, and production environments, ensuring data protection and access control.
7. Created training materials and conducted workshops for users, enhancing their proficiency in Hyperion tools.

Hyperion Consultant
📅 Mar / 2020-Mar / 2021
Lakeside Apparel Co
📍 Chicago, IL

1. Designed and built Planning Applications tailored to client needs, enhancing financial forecasting accuracy.
2. Executed metadata loading and data integration processes, ensuring data integrity and consistency.
3. Developed user-friendly Web Forms and workflows, streamlining user interactions with financial data.
4. Automated data loading processes using MaxL scripts, improving operational efficiency.
5. Created and maintained complex calculation scripts for various financial metrics, ensuring accurate reporting.

EDUCATION

Bachelor of Science in Information Technology
📅 Mar / 2019 _ Mar / 2020
University of California
📍 Denver, CO

Focused on data management and financial systems, developing a strong foundation in IT solutions.
