### PROFESSIONAL SUMMARY

Resourceful Imagery Analyst with a decade of experience in geospatial intelligence and data analysis. Expertise in leveraging advanced imagery tools to convert complex datasets into actionable insights that drive mission success. Committed to enhancing operational effectiveness and fostering collaboration across diverse teams to deliver high-quality intelligence products.

### WORK EXPERIENCE

Imagery Analyst Apr / 2019-Ongoing  
Blue Sky Innovations Chicago, IL

- Conducted in-depth analysis of national and theater-level imagery and geospatial information to support multi-source intelligence analysis for tactical operations.
- Developed map overlays and imagery-based products to facilitate decision-making for various military operations.
- Produced precise targeting products to support collection efforts and operational planning.
- Established a collaborative geospatial tracker for counter-IED, IED, and SAM operations, enhancing force protection strategies.
- Contributed to comprehensive reporting on transnational threats, improving situational awareness for decision-makers.
- Assess urban development impacts through detailed imagery evaluations.
- Completed extensive training in FMV analysis and operational support systems to enhance analytical capabilities.

Imagery Analyst Apr / 2015-Apr / 2019  
Crescent Moon Design Portland, OR

- Participated in ongoing training for various Geospatial Intelligence software, including Socet-GXP and ArcGIS, to enhance analytical skills.
- Analyzed NTM and commercial imagery to assess foreign military capabilities and operations, providing timely intelligence to stakeholders.
- Integrated geospatial intelligence from multiple sources to support comprehensive analysis.
- Collaborated with team members to identify key features in imagery, contributing to enhanced analysis accuracy.
- Assisted in developing AI models by analyzing and labeling imagery data for future applications.

### EDUCATION

Bachelor of Science in Geospatial Intelligence Apr / 2012 - Apr / 2015  
University of Maryland Santa Monica, CA

Studied geospatial analysis, remote sensing, and imagery interpretation techniques.

### SKILLS

Cartography Skills  
Erdas Imagine (geospatial Analysis)  
Sms Tools (imagery Management)  
Corel (graphic Design Software)  
Ruler (measurement Tools)

### INTERESTS

Home Brewing Wildlife Conservation  
Running Public Speaking

### STRENGTHS

Willingness Wisdom  
Zeal Ingenuity

### LANGUAGES

English German Swahili

### ACHIEVEMENTS

- Led the integration of advanced geospatial data to enhance operational planning, resulting in a 30% increase in mission success rates.
- Developed a comprehensive geospatial tracking system that improved force protection measures by 25%.
