PROFESSIONAL SUMMARY

Experienced Information Assurance Engineer with a decade of expertise in safeguarding critical information systems and ensuring compliance with security regulations. Skilled in risk assessment, vulnerability management, and implementing comprehensive security frameworks to protect sensitive data. Committed to advancing organizational security strategies and fostering a culture of continuous improvement.

WORK EXPERIENCE

Information Assurance Engineer  Apr / 2018-Ongoing
Quantum Solutions LLC  Phoenix, AZ

1. Collaborated with security professionals and stakeholders to support information security requirements across multiple projects.
2. Developed and maintained security artifacts, ensuring compliance with industry standards and regulations.
3. Focused on the assessment and documentation of security requirements, enhancing system security frameworks.
4. Utilized NIST A&A processes to create security documentation compliant with federal standards.
5. Ensured adherence to NIST Special Publication 800-53, facilitating comprehensive risk management.
6. Conducted risk assessments, providing actionable insights for risk-based decision-making.
7. Evaluated cybersecurity risks of IT systems, documenting findings in formal assessments to support the A&A process.

Information Assurance Engineer  Apr / 2015-Apr / 2018
Crescent Moon Design  Portland, OR

1. Engineered and monitored security solutions across multiple network levels in critical environments, ensuring robust protection.
2. Analyzed information assurance threats, vulnerabilities, and risks, providing strategic recommendations to leadership.
3. Assisted in planning and implementing information assurance programs, enhancing overall security posture.
4. Provided expert advice on mitigating system and network vulnerabilities to engineering teams.
5. Reviewed and drafted security policies, actively participating in technical meetings and working groups.
6. Performed security scans for networks, both domestically and internationally, identifying and addressing vulnerabilities.
