🏆 ACHIEVEMENTS

- 🌟 Conducted over 100 vulnerability assessments, leading to a 30% reduction in security incidents.
- 🌟 Developed security training programs that improved compliance by 40% across the organization.

👤 PROFESSIONAL SUMMARY

Information Assurance Technician with 5 years of experience in assessing and mitigating security risks. Skilled in performing vulnerability assessments and implementing comprehensive security measures. Focused on enhancing system integrity and compliance through meticulous analysis and collaboration with stakeholders.

💻 WORK EXPERIENCE

Consultant Information Assurance Technician 📅 May / 2021-Ongoing
Maple Leaf Consulting 📍 Toronto, ON

1. Performed vulnerability scanning on Windows and Linux-based operating systems using tools like Nessus and ISS, ensuring compliance with security standards.
2. Guided clients in configuring devices for effective vulnerability analysis and remediation.
3. Analyzed scan reports to identify vulnerabilities and provided actionable remediation steps to clients.
4. Authored detailed vulnerability analysis reports, highlighting residual risks and mitigation strategies.
5. Reviewed and validated technical sections of the System Security Authorization Agreement (SSAA) to ensure accuracy and coherence.
6. Created and updated network and data flow diagrams using Microsoft Visio to support security documentation.
7. Maintained security scanning tools to ensure they were up-to-date with the latest patches and security updates.

Information Assurance Technician 📅 May / 2020-May / 2021
Lakeside Apparel Co 📍 Chicago, IL

1. Installed and configured network systems for over 1,000 users, ensuring optimal performance and security.
2. Developed and managed the SharePoint and Army Knowledge Online (AKO) portals, enhancing information sharing.
3. Automated work-order processes, improving efficiency and reducing processing time by 35%.
4. Enhanced accountability in work-order tracking through improved reporting mechanisms.
5. Executed security operations in compliance with DISA policies, including patch management for critical systems.
6. Established security baselines for classified environments, conducting audits to ensure adherence to standards.

🎓 EDUCATION

Bachelor of Science in Information Assurance 📅 May / 2019 - May / 2020
University of Maryland 📍 Denver, CO

Focused on cybersecurity principles, risk management, and information security technologies.
