## 👤 PROFESSIONAL SUMMARY

Integration Analyst with 2 years of hands-on experience in managing data integration and ensuring seamless system interoperability. Skilled in employing HL7 standards to facilitate data workflows and enhance operational effectiveness. Committed to leveraging analytical abilities and technical knowledge to drive successful integration projects and deliver impactful solutions.

## 🖥 WORK EXPERIENCE

### Integration Analyst
**Maple Leaf Consulting**

📅 Feb / 2024-Ongoing
📍 Toronto, ON

1. Facilitated the development of a branded patient portal, allowing patients to manage demographics, request refills, and access lab results.
2. Participated in the design and implementation of interfaces utilizing N-Tier Architecture.
3. Developed complex SQL Server stored procedures, achieving optimal performance for high-volume data queries.
4. Resolved production issues promptly through effective debugging techniques.
5. Conducted functional testing to ensure fulfillment of client requirements using tools such as ASP.Net, C#, HTML, and SQL Server.
6. Maintained comprehensive integration documentation for data flows, connectivity specifications, and problem resolution.
7. Collaborated with team members to address application functionality and workflow needs effectively.

### Integration Analyst
**Cactus Creek Solutions**

📅 Feb / 2023-Feb / 2024
📍 Phoenix, AZ

1. Served as project manager for software conversion, training Finance Managers on new systems and implementing paperless refund procedures.
2. Acted as a data analyst and web editor for Quality Express technology projects, enhancing internal data collection and transfer.
3. Provided technical support and guidance for technology-related issues across teams.
4. Managed the implementation of a personal data assistant (PDA) for electronic signature collection, achieving a 95% capture rate.
5. Facilitated onboarding and troubleshooting for customer connections with trading partners, ensuring smooth integration.
6. Handled first-person interactions for requests regarding connectivity files and integration parameters.
