# PROFESSIONAL SUMMARY

Proficient Java Engineer with 7 years of experience in architecting and developing robust applications. Expert in Java EE and Spring frameworks, I excel in delivering high-quality software solutions that optimize performance and meet complex business needs. My strong analytical skills and collaborative approach drive innovative results, ensuring projects align with both user expectations and organizational goals.

## 🔛 WORK EXPERIENCE

## Java Engineer

# Jun / 2020-Ongoing

**Seaside Innovations** 

📮 Santa Monica, CA

- 1. Engineered applications utilizing design patterns like MVC, ensuring scalable and maintainable code.
- 2. Integrated frameworks to enhance configurability and performance of Java applications.
- 3. Developed web applications leveraging Struts and Spring, focusing on user-centric design.
- 4. Managed the full software development lifecycle, from requirements gathering to deployment.
- 5. Utilized Eclipse IDE and plugins for efficient development processes.
- 6. Conducted code reviews and mentoring sessions to elevate team standards.
- 7. Automated testing processes using JUnit and Mockito, reducing bug rates by 25% and increasing deployment efficiency.

#### **Java Engineer**

# Jun / 2018-Jun / 2020

### Lakeside Apparel Co

Thicago, IL

- 1. Project Description: Developed a travel domain application using MVC architecture for Carlson Wagonlit Travel.
- 2. The application facilitates ticket refunds, enhancing user experience and efficiency.
- 3. Users can register and submit refund requests, with the system generating receipts and tracking.
- 4. Developed an administrative interface for linking user data to back-office applications.
- 5. Responsibilities included gathering business requirements and preparing detailed design documentation.
- 6. Created user interfaces with JSP, JavaScript, and CSS, ensuring responsiveness.

# 🔛 EDUCATION

**Bachelor of Science in Computer** Science

Jun / Jun / 2016 2018

University of California

♣ Phoenix, AZ

Focused on software development principles, algorithms, and data structures.
