

# OLIVIA SMITH

## Lab Intern

support@qwikresume.com (123) 456 7899 Los Angeles

www.qwikresume.com

## PROFESSIONAL SUMMARY

Detail-oriented Lab Intern with 10 years of experience in pharmaceutical sciences and human biology. Proven ability to conduct experiments, analyze data, and support research initiatives to drive successful outcomes.

## WORK EXPERIENCE

### Lab Intern

Pineapple Enterprises

Dec / 2017-Ongoing

Santa Monica, CA

1. Administered drug compounds via various routes, ensuring compliance with safety protocols.
2. Conducted bioassays to evaluate drug efficacy and safety.
3. Performed muscle mechanics studies using Rotarod and grip strength tests to assess drug effects.
4. Executed behavioral studies to analyze the impact of compounds on test subjects.
5. Analyzed physical properties of substances through viscosity, pH, and dissolution tests.
6. Prepared various pharmaceuticals and cosmetics, adhering to industry standards.
7. Designed containers and labels based on chemical properties and regulatory guidelines.

### Lab Intern

Lakeside Apparel Co

Dec / 2014-Dec / 2017

Chicago, IL

1. Conducted laboratory work focusing on ethnobotanical studies of local tribes.
2. Cleaned, cataloged, and preserved biological samples and artifacts for research.
3. Assisted engineers in setting up experiments to meet client specifications.
4. Evaluated laboratory equipment for procurement, ensuring quality standards.
5. Enhanced lab organization through 5S methodology, improving efficiency.
6. Monitored bacterial growth in sterile conditions using spectrophotometry techniques.
7. Completed 136 clinical hours, performing over 100 venipunctures and skin punctures.

## EDUCATION

### Bachelor of Science in Biology

University of California

Dec / 2011-Dec / 2014

Toronto, ON

Focused on laboratory techniques, research methodologies, and biological sciences.

## SKILLS

Laboratory Software

Analytical Techniques

Data Analysis

Quality Control

## ACHIEVEMENTS

- ★ Streamlined sample processing, reducing turnaround time by 20%.
- ★ Contributed to a research project that resulted in a published paper in a peer-reviewed journal.
- ★ Implemented a new labeling system that improved inventory accuracy by 30%.
