### SUMMARY

Providing administrative support and customer service. Record keeping and Keyboarding Data entry and other administrative duties. Excited to learn new skills.

### CORE COMPETENCIES

HPLC, GC, GC/MS, Electrophoresis, TLC.

### PROFESSIONAL EXPERIENCE

#### Laboratory Specialist

**ABC Corporation - July 1980 – July 2000**

##### Key Deliverables:

- Performed biochemical experiments.
- Analyzed samples using HPLC, GC/MS, protein, and enzyme assays.
- Ordered supplies.
- Maintained analytical instruments.
- Supervised students and junior employees.
- Attended and successfully passed both GC/MS and HPLC courses; learned rodent surgery; designed and programmed a software package to store data, perform simple statistics, and plot the data.
- Prepared solutions for lab experiments.

#### Laboratory Specialist

**Delta Corporation - 1978 – 1980**

##### Key Deliverables:

- Experimental Physics Laboratory with focus in materials characterization & structural analysis Materials & solid state physics o Structural .
- Molecular assay development and validation, clinical trials research, and method comparisons.
- Performs HPLC testing for the determination of API, excipients, impurities and related substances for finished, stability, complaints and bulk .
- Other general QC laboratory responsibilities as assigned Reviews and approves laboratory data.
- Activities Rotated between two labs on a biweekly basis, performing cell culture operations, bacterial plating and plasmid mini-prep harvests, ran .
- Train students and interns DNA extraction, PCR genotyping, immuno-assay, western blot procedures and fluorescence microscopy Compile and maintain .
- Prepared solutions for lab experiments Set up labs for classes Acted in role of Lab Manager.
