

JACKSON TURNER

Lead Network Engineer - Level III

support@qwikresume.com (123) 456 7899 Los Angeles www.qwikresume.com

PROFESSIONAL SUMMARY

Skilled Lead Network Engineer with 2 years of experience in designing and managing complex network infrastructures. Expertise in optimizing network performance, ensuring security compliance, and enhancing reliability in diverse environments. Eager to implement innovative solutions that drive operational efficiency and support organizational goals.

WORK EXPERIENCE

Lead Network Engineer - Level III Feb / 2024-Ongoing
Blue Sky Innovations Chicago, IL

- 1. Managed the design, implementation, and support of enterprise Wireless LAN (WLAN) systems in a healthcare setting.
- 2. Mentored and supervised a team of 4 junior network engineers, fostering professional growth.
- 3. Served as a liaison to hospital informatics and nursing staff to ensure adherence to policies.
- 4. Managed firewall rules and access control lists to secure network perimeters.
- 5. Evaluated and enhanced system-wide security controls to safeguard patient information.
- 6. Utilized tools like AirMagnet and Wireshark for operational assessment of enterprise networks.
- 7. Established standard configurations to ensure secure, reliable connectivity and optimized critical network uptime.

Lead Network Engineer Feb / 2023-Feb / 2024
Silver Lake Enterprises Seattle, WA

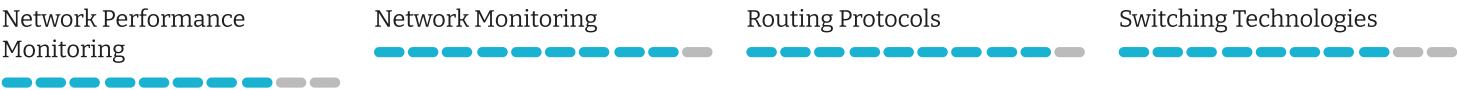

- 1. Designed and supported enterprise data and wireless networks, including Nortel and Cisco switches.
- 2. Authored comprehensive documentation and provided technical training to support staff.
- 3. Engineered multisite WAN and campus Ethernet networks with high-speed encryption.
- 4. Conducted network monitoring and performance tuning to maintain optimal network operations.
- 5. Collaborated on the design and implementation of networks for over 2500 users.
- 6. Developed network access and evaluation protocols to ensure device security.

EDUCATION

Bachelor of Science in Computer Networks Feb / 2022-Feb / 2023
Tech University Denver, CO

Focused on network architecture, security, and management.

SKILLS

ACHIEVEMENTS

- Improved network uptime by 30% through proactive monitoring and upgrades.
- Successfully led the migration of 2500 users to a new network infrastructure.
- Reduced network latency by 25% through optimization of routing protocols.
