PROFESSIONAL EXPERIENCE

LPN Case Manager

ABC Corporation - February 2007 – September 2007

Key Deliverables:

- Provided an assessment performed at the members home to gather relevant information on the medical, functional, cognitive and social status of clients; develop care plans, in which I would design a framework for delivery of services that addresses the clients needs and risks, which have been identified at assessment and which are needed to supplement caregiver/informal support; implementation of the the clients care plans, a dynamic, interactive process in which the I support the goals of the SCM member and their caregivers, promoting optimal health and independence.
- Received a 98.75% QA analysis on all of my clients charts, the highest score of all SOURCE Care Management employees in the state of Georgia.
- Utilized my interviewing skills when assessing new clients, obtaining their medical history and the availability of family caregivers.
- Constanted communication was key in maintaining clients health status and compliance with physician visits and taking medications.
- Encouraged clients to be more independent and take charge of their lives through resources that helped with building necessary skills to perform ADLs, manage monthly income, perform household chores, etc.
- Used my critical thinking skills in order to formulate a clients care plan, implement them, and initiate referral sources for outside help.
- Negotiated and collaborated forces were employed when establishing relationships between individuals and organizations to work effectively to the betterment of my clients.
