Metal Stud Framer

✉ support@qwikresume.com ☎ (123) 456 7899 📍 Los Angeles 🌐 www.qwikresume.com

PROFESSIONAL SUMMARY

Seasoned Metal Stud Framer with 7 years of hands-on experience in constructing and installing metal frameworks for diverse projects. Adept at interpreting blueprints, executing precise measurements, and ensuring compliance with safety standards. Passionate about delivering exceptional craftsmanship and collaborating effectively with construction teams to achieve project goals.

WORK EXPERIENCE

Metal Stud Framer

📅 Apr / 2021-Ongoing

Blue Sky Innovations

📍 Chicago, IL

1. Interpreted blueprints and specifications to determine installation methods, materials, and required tools.
2. Installed horizontal and vertical metal studs for wallboard attachment on interior walls, ensuring precision and alignment.
3. Laid out reference lines for accurate positioning of metal framing and furring channels using chalk lines.
4. Measured, marked, and cut metal studs and runners to specified dimensions using hand and power tools.
5. Prepared drywall by measuring and marking cutting lines for precise installation.
6. Skilled in fitting and fastening drywall into position, utilizing screws and adhesive for secure attachment.
7. Constructed metal stud frameworks for commercial projects, ensuring structural integrity and compliance with codes.

Metal Stud Framer

📅 Apr / 2018-Apr / 2021

Silver Lake Enterprises

📍 Seattle, WA

1. Cut and prepared drywall to precise sizes for installation, ensuring a perfect fit.
2. Efficiently carried and hung drywall, using screw guns for secure attachment to walls.
3. Accurately cut metal or wood studs to required sizes for framing.
4. Constructed and installed framed partitions and bulkheads according to project specifications.
5. Utilized construction plans and blueprints to ensure compliance with building standards.
6. Trained and supervised a team of 5 junior framers, improving team efficiency and skill levels on-site.
7. Utilized advanced tools and techniques to install metal studs, achieving a 98% accuracy rate in measurements.

EDUCATION

Diploma in Construction Technology

📅 Apr / 2015-Apr / 2018

ABC Technical Institute

📍 Phoenix, AZ

Acquired foundational knowledge in construction methods, materials, and safety protocols.

SKILLS

Insulation installation

Drywall installation

Finish carpentry

Remodeling skills

ACHIEVEMENTS

- 🌟 Successfully completed over 30 metal framing projects, adhering to strict timelines and budgets.
- 🌟 Enhanced structural integrity by implementing effective framing techniques, resulting in zero safety incidents.
