EXPERIENCE

Asst. Metal Worker

ABC Corporation - 2001 - 2005

- Member of a team of welders, machinist, and mechanics that support military units by performing fabrications.
- Completed numerous jobs in various stances, positions, and while saving millions of dollars repairing.
- Served as a metal worker overseas in Iraq and Kuwait in Operation Enduring Freedom.
- Maintained composure in a wartime situation to get jobs done correctly and to customers satisfaction.
- Crossed trained people in various welding styles on ferrous and locations in the world.
- Crossed trained in maintenance, as a machinist, and in mechanics.
- Performed on hundreds of vehicle and radiator repairs; including extractions, re-threading, safety glass installation.

Asst. Metal Worker

Asst. ABC Corporation - 2000 - 2001

- My task was to take pieces of metal and use grinding tools to smooth out the rough stuctures.
- Then I would take the metal and carefully dip it in acid to remove its impurities.
- Since I had to work wih metal I kept the flow going.
- They needed the metal that I worked with to get other things such as painting it and putting images on it.
- Skills Used I showed how I was able to stay focused.
- Was able to work independently.
- Showed them that I was someone that one can rely on..

EDUCATION

- Diploma
