

ROBERT SMITH

Milker

info@qwikresume.com | <https://Qwikresume.com>

To establish a long-term career in a company where I may utilize my Milker professional skills and knowledge to be an animal care, operating milking equipment, etc.,.

FEBRUARY 2014 - SEPTEMBER 2015

MILKER - ABC CORPORATION

- Cleaned-up was important after the evening was done.
- Operated with milk machines worth thousands of dollars and had to treat the equipment as if it was mine.
- Helped assist the vet with the berthing of cattle.
- Set up, operated, and maintained the milking equipment -Milk the cows according to standards outlined in the farm Quality Assurance program.
- Maintained the safety of cows to prevent animals from getting injured and machinery from being broken/damaged.
- Milked cows, cleaned parlor, administered treatments, took care of brand new calves and others up to a week old, recorded births, and any treatments.
- Got sick for a while with users and caused me to call off and lose the job I was milking over 300 cows so I was in a fast-paced work but will need.

2010 - 2014

MILKER - DELTA CORPORATION

- Hour milking days 48 hours per week.
- Herd Cows - Shovel Manure - Milk Cows - Laundry - Wash Down Parlor.
- Milk cows, pick rocks, clean stalls, ran skid loader.
- Milk and feed the sheep during my shifts during the early morning or evening.
- Monitor animal care, maintenance, or breeding; or packing and transfer activities to ensure work is done correctly.
- Study feed, weight, health, genetic, or milk production records in order to determine feed formulas and rations and breeding schedules.
- There were 5 stations and every station I had to do my job correctly a do in a timely fashion so that I didnt miss any cows and when I had to move.
