PROFESSIONAL SUMMARY

Results-driven Mill Operator skilled in operating and maintaining milling equipment. Successfully improved production output by 15% through process optimization and adherence to safety protocols, ensuring a safe work environment.

WORK EXPERIENCE

Mill Operator

WidgetWorks Inc.

📅 Feb / 2024–Ongoing
📍 Denver, CO

- 1. Ensured adherence to safety standards, resulting in zero workplace accidents over a 12-month period.
- 2. Performed quality inspections on finished products, maintaining a 99% customer satisfaction rate.
- 3. Led initiatives to upgrade milling technology, increasing production capacity by 20% without additional labor costs.
- 4. Developed and implemented standard operating procedures, improving consistency and reliability in production.
- 5. Monitored environmental compliance during operations, ensuring adherence to regulations and reducing emissions.
- 6. Coordinated with supply chain to manage inventory levels, reducing material costs by 15% through efficient ordering.
- 7. Reduced machine setup times by 25% through process optimization and training initiatives.

Mill Operator

Cactus Creek Solutions

📅 Feb / 2023–Feb / 2024
📍 Phoenix, AZ

- 1. Monitored CNC mill operations for efficiency and precision during production runs.
- 2. Adjusted machine settings based on quality control findings and production requirements.
- 3. Maintained a clean and organized work area to promote safety and efficiency.
- 4. Documented production metrics and reported discrepancies to management.
- 5. Participated in continuous improvement initiatives to enhance operational workflows.
- 6. Executed preventative maintenance tasks to minimize equipment failures.

EDUCATION

Associate of Applied Science in Machine Technology

Tech Institute of Michigan

📅 Feb / 2022–Feb / 2023
📍 Chicago, IL

Focused on CNC operations, machining principles, and safety standards.

SKILLS

ACHIEVEMENTS

- 🌟 Reduced machine downtime by 15% through proactive maintenance and troubleshooting.
- 🌟 Improved production efficiency by 20% by optimizing machine settings and workflows.
