PROFESSIONAL SUMMARY

Accomplished Model Maker with 10 years of extensive experience in crafting high-quality prototypes and models. Expertise in interpreting technical drawings and utilizing advanced fabrication techniques. Proven ability to collaborate effectively with engineering teams to drive innovation and enhance product development. Dedicated to delivering precision and excellence in every project.

WORK EXPERIENCE

Model Maker Apr / 2018-Ongoing
Blue Sky Innovations Chicago, IL

1. Skilled in producing high-precision test fixtures, tools, and dies in accordance with engineering specifications.
2. Expertly crafted tools and prototypes by interpreting technical drawings and specifications.
3. Conducted comprehensive prototyping phases to validate concepts before production.
4. Collaborated closely with engineering teams to refine prototypes and ensure accuracy.
5. Maintained a well-organized inventory of materials and tools to streamline production processes.
6. Utilized measuring instruments to mark reference points and dimensions accurately on materials.
7. Implemented best practices for quality control to ensure all models met stringent industry standards.

Model Maker Apr / 2015-Apr / 2018
Cactus Creek Solutions Phoenix, AZ

1. Partnered with the engineering team to validate and modify concepts for future product enhancements.
2. Utilized advanced machinery to produce complex brackets and prototype components.
3. Executed meticulous finishing processes, including custom painting and assembling of models.
4. Designed and tested innovative prototype electrical connectors to meet project specifications.
5. Developed production tooling for both new and existing customer parts, ensuring quality and efficiency.
6. Set up machine shop processes, including precise measuring and inspection techniques.

EDUCATION

Bachelor of Science in Industrial Design Apr / 2012-Apr / 2015
University of Michigan Toronto, ON

Focused on product design and prototype development, emphasizing hands-on fabrication skills.
