Looking for obtaining a leader position within an organization where accomplished education and demonstrated abilities will help to teach and motivate people while maintain accomplishments and interests.

EXPERIENCE

Molder III

ABC Corporation - SEPTEMBER 2004 - OCTOBER 2012

- Observe continuous operation of automatic machines to ensure that products meet specifications and to detect jams or malfunctions.
- Measure and visually inspect products for surface and dimension defects in order to ensure conformance to specifications, using precision measuring instruments.
- Set up, operate, plastic molding and core making machines to mold thermoplastic or rubber parts or products.
- Position and secure workpieces on machines, and start feeding mechanisms.
- Turn valves and dials of machines to regulate pressure, temperature, and speed and feed rates, and to set cycle times.
- Remove finished or cured products from molds, using hand tools, air hoses, and other equipment.
- Install molds onto machines, presses or die frames, then coat molds with parting agents, according to work order specifications.

Molder

ABC Corporation - 1999 - 2004

- I made molds in co2 sand in a grey iron foundry.
- it was all loose work and the castings ranged in size from a couple lbs.
- to several thousand lbs.
- we also used air-set for the very large castings.
- This was the first time that I had worked with iron.
- it was considerably easier than non-ferrous alloys.
- Skills Used i was a molder and did loose work.

EDUCATION

- - (Sidney Central School - Sidney, NY)

SKILLS

Carpentry, Computer skills.
