## WORK EXPERIENCE

### NC Programmer

Rock Island Arsenal - (contracted Through HRU Technical Resources) - November 2011 - 2013

- Provided set up drawings (instructions/set up sheet) and full tooling summary.
- Scheduled and conducted a simulation review for all programs so that can gain the input of others such as Methods, Planning, QA, and Production machinists.
- Helped train new employees various software and best practice (working procedures).
- Programmed NC machine centers that produced new military products from released or preliminary drawings.
- Worked with the machinists to make sure setup and machining procedures are followed.
- Performed tool path verification using Vericut software.
- Conducted validation analysis of the finished product and computer models.

### NC Programmer

Delta Corporation - 2015 - 2018

- Took engineering drawings and 3-D models of parts and create programs to make these parts on an NC turret punch press using software called Striker.
- Took engineering blueprints and drafted them out in Auto Cad Mechanical to create a DXF of these parts in 2D.
- Designed parts and drafted them out and in 3D using Auto Cad Inventor.
- Created full prints that have complete dimensions and scaling.
- Provided technical guidance to his/her group.
- Provided input on selection, placement, job evaluation, performance, and appraisals.
- Supported the Machine Shop and Assembly & Test areas by coordinating the manufacturing Engineering group activities.
