PROFESSIONAL SUMMARY

Motivated Network Engineer with over 2 years of experience in designing, implementing, and troubleshooting efficient network systems. Proficient in configuring Cisco routers and switches to optimize performance and ensure secure connectivity. Passionate about enhancing network reliability and user experience through innovative solutions and proactive problem-solving.

WORK EXPERIENCE

Network Engineer May / 2024-Ongoing
Blue Sky Innovations Chicago, IL

- Designed, configured, and maintained network hardware and software, ensuring optimal performance and reliability.
- Developed and enforced network policies and security protocols to safeguard organizational data.
- Managed user access and security settings, training users on effective software utilization.
- Responded promptly to user inquiries regarding network resources and software operations.
- Established operational standards for network security and data management.
- Collaborated with cross-functional teams to troubleshoot and resolve network issues.
- Researched new technologies for potential integration to enhance network performance.

Network Engineer Intern May / 2023-May / 2024
Crescent Moon Design Portland, OR

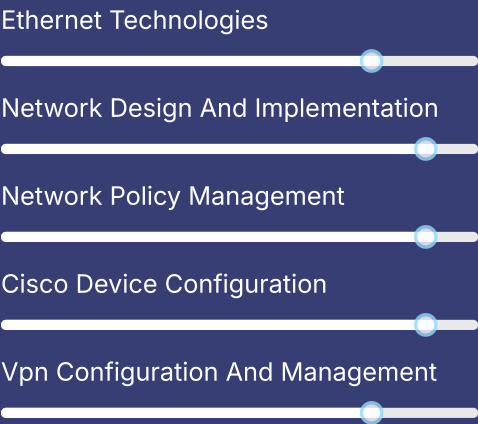

- Monitored and configured network security systems, effectively managing escalations.
- Applied OS updates and patches to maintain system integrity and security.
- Participated in disaster recovery testing, ensuring operational continuity.
- Consulted with IT teams to assess system needs and implement solutions.
- Researched and proposed new processes for system optimization.

EDUCATION

Bachelor of Science in Network Engineering May / 2022 - May / 2023
State University Chicago, IL

Focused on network design, security protocols, and troubleshooting methodologies.

SKILLS

INTERESTS

- Home Brewing Wildlife Conservation
- Running Public Speaking

STRENGTHS

- Willingness Wisdom
- Zeal Ingenuity

LANGUAGES

ACHIEVEMENTS

- Implemented a network monitoring system that decreased latency by 15%.
- Configured and optimized routing protocols, enhancing data traffic efficiency.
