## ACHIEVEMENTS

### PROFESSIONAL SUMMARY

Operating Engineer with a decade of extensive experience in managing and maintaining heavy machinery in diverse environments. Expertise in troubleshooting complex mechanical systems, ensuring optimal performance, and adhering to stringent safety regulations. Proven leader committed to enhancing operational efficiency and delivering exceptional results in high-pressure settings.

## WORK EXPERIENCE

#### Operating Engineer

Pineapple Enterprises

🛗 Jan / 2018-Ongoing ♣ Santa Monica, CA

- 1. Inspect and maintain the operation of 2 250 tons Trane absorption chillers to ensure optimal performance.
- 2. Conduct thorough inspections and maintenance of HVAC systems, including fan coil units and package systems, to enhance efficiency and lifespan.
- 3. Oversee main circulating pumps for condenser, chilled water, and hot water systems, performing necessary repairs and adjustments.
- 4. Isolate, clean, and maintain strainers and grit separators to ensure system integrity.
- 5. Diagnose and troubleshoot mechanical issues, implementing solutions to minimize service disruptions.
- 6. Perform routine maintenance checks, accurately logging equipment performance and service history.
- 7. Replace medical air and nitrogen tanks as required for critical life support systems.
